

Customer Complaint Record

Customer Name: Rajesh Kumar

Email: rajesh.kumar91@outlook.com

Phone: +91 98765 43210

Product/Service: UltraBook Pro 14 Laptop (Model: UB-P14-2025)

Complaint Description:

The laptop purchased three weeks ago has started shutting down randomly during normal use, even with the charger connected. The screen also flickers intermittently when the device is under load.

Issue Details:

- Random shutdowns occurring 3-5 times per day
- Screen flickering during video playback and gaming
- Device is well within the 1-year manufacturer warranty period
- Purchased on Feb 10th, 2026 from the official online store

Resolution Provided:

Case is still under investigation. Technical support has requested the customer ship the unit to the regional service center for diagnostic testing. A prepaid shipping label was emailed on March 8th, 2026. No replacement or repair has been completed yet.

Escalation Notes:

Escalated to Level 2 Hardware Support on March 8th, 2026 due to the safety concern of random shutdowns. Awaiting diagnostic results before a repair/replace decision.

Supporting Information:

Customer submitted a short screen-recording video showing the flickering issue. Original purchase invoice number: INV-55210.
